**SCHEDULE –VIII**

**Significant Accounting Policies and Notes on Accounts for the year ended 31<sup>st</sup> March 2010**

**A. SIGNIFICANT ACCOUNTING POLICIES:**

**1) Basis of preparation**

The financial statements are prepared under the historical cost convention, on accrual basis, in compliance with all material aspects of the notified Accounting standards by Companies (Accounting Standards) Amendment Rules, 2008 and the relevant provisions of the Companies Act, 1956. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

**2) Use of estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the period reported. Actual results could differ from those estimates. Any revision to accounting estimates is recognised in accordance with the requirements of the respective accounting standard.

**3) Revenue Recognition**

- a) Income from interest is accounted for on time proportion basis taking into account the amount outstanding and the applicable rate of interest.
- b) Other Income is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

**4) Fixed Assets & Depreciation**

Fixed assets are stated at cost (or revalued amounts, as the case may be), less accumulated depreciation and impairment losses. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use, net of cenvat recoverable. Financing costs relating to construction of fixed assets are also included to the extent they relate to the period till such assets are ready to be put to use. Financing costs not relating to construction of fixed assets are charged to the income statement.

5) **Investments**

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. Current investments are carried at lower of cost and market value whichever is less.

All other investments are classified as long-term investments. Long-term investments are carried at cost, less provision for diminution in value other than temporary.

6) **Impairment of assets**

The carrying amounts of assets are reviewed at each balance sheet date if there are impairment indicators. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the WACC.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or decreased based on reassessment of recoverable amount, which is carried out if the change is significant. However the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

7) **Employee benefits**

**Defined Contribution Plan**

Contribution to defined contribution plans are recognized as expense in the Profit and Loss Account as they are incurred.

**Defined Benefit Plan**

Company's liabilities towards gratuity liability are provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each balance sheet date. Actuarial gains/losses are immediately taken to P&L Account and are not deferred.

8) **Borrowing Cost**

Borrowing costs which are directly attributable to acquisition, construction or production of a qualifying asset are capitalized as a part of the cost of that asset. Other borrowing costs are recognized as expenses in the period in which they are incurred.

**9) Taxation**

Tax expense comprises of current and deferred. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act. Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

**10) Foreign Currency Transactions**

Foreign Currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at

the date of the transaction. The gain or loss arising out of settlement / translation of the assets and liabilities at the closing rates due to exchange fluctuations is recognized as income/expenditure in the profit and loss account.

#### **11) Earnings Per Share**

The Company reports basic and diluted earnings per share in accordance with AS-20 "Earnings per Share". Basic earnings per share are computed by dividing the net profit or loss for the period by the weighted average number of Equity Shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of Equity Shares outstanding during the period as adjusted for the effects of all dilutive potential equity shares.

#### **12) Provision**

A provision is recognized when an enterprise has a present obligation as a result of past event it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

#### **13) Contingent Liabilities**

Contingent Liabilities, if any, are disclosed in the Notes on Accounts. Provision is made in the accounts in respect of those contingencies which are likely to materialize into liabilities after the year end till the approval of the accounts by the Board of Directors and which have material effect on the position stated in the Balance Sheet.
